Re: RA Implementation Process /Hamilton Sundstrand Facility
Southeast Rockford Groundwater Contamination Site- Source Area 9/10
Winnebago County, Rockford, Illinois

Dear Mr. Wilcoxson,

This letter is intended to summarize our understanding reached during the February 29, 2008 meeting regarding the process for future implementation of the remedial action (RA) at the Hamilton Sundstrand property located within Source Area 9/10 of the Southeast Rockford Groundwater Contamination Superfund Site in Rockford, Illinois. Participants of the February 29, 2008 meeting included legal and technical staff of Hamilton Sundstrand, the State of Illinois, the United States Environmental Protection Agency, and the U.S. Department of Justice.

As discussed, it is EPA and Illinois EPA's expectation that enclosed process flow chart is included in the RA Work Plan that will be submitted by Hamilton Sundstrand once the Consent Decree for Implementation of the RA is signed and lodged in federal court.

If you have any questions, please do not hesitate to contact me at 312-886-6151 or via e-mail, kolak.shari@epa.gov.

Sincerely,

A handwritten signature in cursive script, reading "Shari Kolak", is positioned above the typed name.

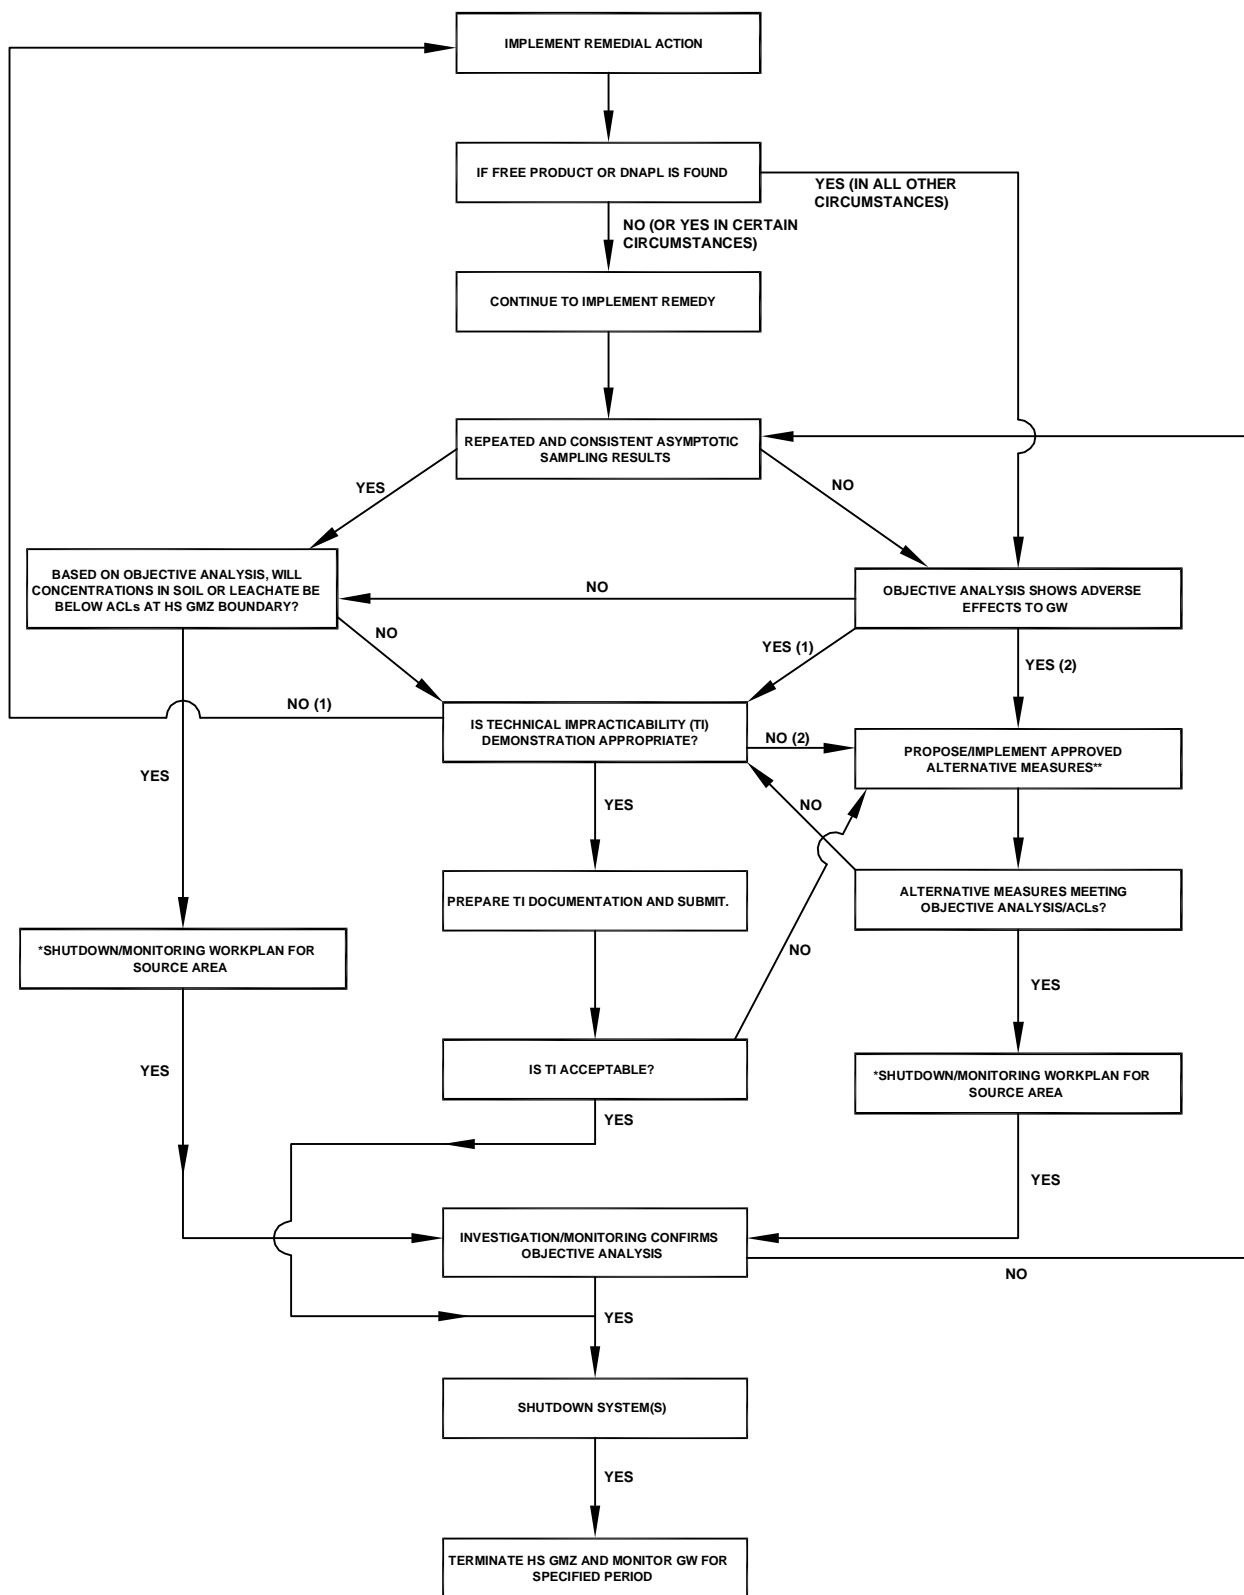

Shari Kolak
Remedial Project Manager
Superfund Division
